In view of the fact that the parties share the common aim of acting for the protection and the promotion of human rights, democracy, the rule of law and international justice;

Considering that the parties intend to implement this aim, in particular in the following three complementary thematic programs, namely:

- a) the promotion of democratic reform in Arab and neighbouring countries;
- b) the elimination of female genital mutilation; and
- c) the promotion of international criminal justice;

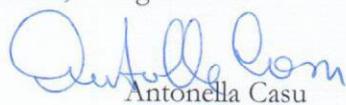

Considering that, to that end, it is the common interest of each party to work in close synergy with the other, in order to maximise the results of and minimise the costs for the funding each of them receives;

The parties hereby agree:

- (1) to work in strict collaboration on all initiatives that can be undertaken jointly and to focus their work and activities primarily on such initiatives;
- (2) that the offices and personnel of each party will operate as a logistical and operational base in support of their joint initiatives;
- (3) to raise and share the funds necessary to support all joint initiatives; and
- (4) to exchange proper financial reports on costs undertaken in regard to these joint initiatives, in order to ensure full financial reporting to all donors.

The agreement shall be considered valid until it is terminated in writing, signed by both parties.
